

QUALITY POLICY

- **The entire staff and management of National Medical Supplies cc are committed to providing the best quality products and services to our customers.**
- Management is committed and responsible to ensure that National Medical Supplies cc complies with the ISO 13485 Standard, where possible, and national regulatory authority medical device legislative and/or regulatory requirements for the benefit of our customers.
- **The objective of the Quality System is to ensure that we supply our customers with products or services to the best of our ability, using accredited processes and assuring our customers of 'fit for purpose' quality products. We achieve this by maintaining Good Warehouse Practices, which are audited and verified by independent agencies.**
- All staff are trained and understand and endorse this policy, our commitment and our requirements.
- **National Medical Supplies cc will ensure supplier and customer confidentiality by restricting unauthorised access to premises, documentation, products, supplier and customer records.**
- Confidentiality is a condition of service for all personnel including contractors and auditors.
